Navi Mumbai, MH

PROFESSIONAL SUMMARY

Results-driven aspiring Data Scientist and ML Engineer with hands-on experience in machine learning, deep learning, and data analytics. Proficient in the Python ML ecosystem (Pandas, NumPy, Scikit-learn, TensorFlow, XGBoost) and experienced in building end-to-end ML pipelines, interactive dashboards, and AI-powered applications. Published researcher in AI-powered social media analytics (IRJMETs, April 2026). Pursuing B.E. in CSE (AI & ML) at MGM College, Navi Mumbai (Expected 2027), CGPA 8.00. Seeking a challenging ML Engineer / Data Scientist role to solve complex real-world problems using data-driven and cutting-edge AI approaches.

EDUCATION

Diploma — Artificial Intelligence & Machine Learning | Agnel Polytechnic Vashi, Navi Mumbai 2021 – 2024

CGPA: 8.50 / 10.00

B.E. — Computer Science Engineering (AI & ML) | MGM College of Engineering, Navi Mumbai 2024 – 2027 (Expected)

CGPA: 8.00 / 10.00

RESEARCH & PUBLICATION

InsightSphere AI Pro: A Real-Time Social Media Analytics Platform with AI-Powered Insights

IRJMETs — Vol. 08, Issue 04, April 2026 · Paper ID: IRJMETs80400237896 · DOI: 10.56726/IRJMETs95181

- Designed and developed a real-time social media analytics platform integrating AI-powered insights and automated reporting.
- Published as sole author in a Peer-Reviewed, Open Access, Fully Refereed International Journal (IRJMETs) — April 2026.

TECHNICAL SKILLS

Languages / DB	Python, SQL (MySQL)
ML / DL Frameworks	Scikit-learn, TensorFlow, Keras, XGBoost, Pandas, NumPy, SciPy
Visualization	Matplotlib, Seaborn, Plotly, Power BI, Streamlit, Excel
ML Techniques	Supervised & Unsupervised Learning, Regression, Classification, Clustering, PCA, Feature Engineering, Model Evaluation
NLP & AI	Speech Recognition, Pytsx3, NLTK, REST API Integration, Ollama LLM, RAG Pipelines
Dev Tools	Git, GitHub, Jupyter Notebook, Google Colab, VS Code, AWS EC2

WORK EXPERIENCE

Web Development Intern | Infodeal Technologies, Pune Jun 2023 – Jul 2023

- Contributed to a live production web project (One Click), building responsive UI components that improved user experience across mobile and desktop.
- Collaborated within an agile team to deliver sprint features on schedule over 6 weeks, gaining exposure to the full software development lifecycle.
- Participated in code reviews and daily standups, strengthening collaborative development practices.

PROJECTS

InsightSphere AI Pro — Social Media Analytics Platform [Python, NLP, REST APIs, Power BI]

- ▶ Built a real-time analytics platform that aggregates and processes social media data with AI-powered insight generation — subject of a peer-reviewed publication (IRJMETs, April 2026).
- ▶ Integrated NLP-driven sentiment analysis and automated reporting pipelines for content strategy decision-making.

Ollama LLM RAG System — Local Retrieval-Augmented Generation [Python, Ollama, LangChain, ChromaDB, Streamlit]

- ▶ Built a fully local RAG pipeline using Ollama (Llama 3 / Mistral) as the LLM backbone, enabling privacy-preserving document Q&A without external API calls.
- ▶ Integrated ChromaDB as the vector store for semantic document chunking, embedding, and similarity-based retrieval using nomic-embed-text.
- ▶ Developed an interactive Streamlit frontend allowing users to upload PDFs, query documents in natural language, and receive grounded LLM responses with source citations.
- ▶ Optimised context window management and prompt engineering to reduce hallucinations and improve answer faithfulness on custom corpora.

Data-Refinery — Automated Data Cleaning Web App [Python, Streamlit, Pandas, Scikit-learn]

- ▶ Built a full-featured Streamlit app for automated data cleaning: missing value imputation, outlier detection, encoding, and feature scaling.
- ▶ Added EDA summary visualizations and one-click cleaned dataset download; reduced manual preprocessing time by ~70% in testing.

Nova — Multilingual AI Voice Assistant [Python, SpeechRecognition, Pytsx3, REST APIs]

- ▶ Developed a multilingual voice assistant supporting English, Hindi, and Marathi with wake-word detection.
- ▶ Integrated web search, weather API, math solver, app launcher, and command execution pipelines into a unified interface.

Cloud-Based Online Code Compiler [Docker, AWS EC2, Node.js / Flask]

- ▶ Built a cloud-based platform enabling users to write, compile, and execute code online in Python, Java, and C++.
- ▶ Implemented secure sandboxed code execution using Docker containers deployed on AWS EC2 for scalable performance.

ACHIEVEMENTS & CERTIFICATIONS

- ▶ Published peer-reviewed research paper in IRJMETs (Vol. 08, Issue 04, April 2026) — an international, open-access journal.
- ▶ Completed 6+ end-to-end ML/Data Science projects spanning classification, deep learning, clustering, NLP, and RAG pipelines.
- ▶ Maintained CGPA of 8.00 / 10.00 in B.E. CSE (AI & ML) at MGM College of Engineering, Navi Mumbai.
- ▶ Built and deployed interactive Streamlit and Power BI dashboards addressing real-world data problems.
- ▶ Completed a 6-week industry internship at Infodeal Technologies with successful project delivery.
- ▶ Self-taught advanced Python ML libraries (TensorFlow, Scikit-learn, XGBoost, LangChain, Ollama) through structured, project-based learning.

ADDITIONAL INFORMATION

Date of Birth: 12th April 2005 **Languages:** English, Hindi, Marathi **Availability:** Immediate — Open to Internships & Full-time
